

PEARLOCK system F (fixed point)

**Cross references**

Cordless screwdriver ASCM
QSWSocket wrench insert SW8
Bit hexalobular TX25x70

Application range

- > For invisible fastening of ALPOLIC™ aluminium composite panels (4.0 mm) to aluminium, steel and timber substructures
- > For new buildings and renovations
- > For fixed point fastening

Characteristics

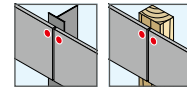

- > Plastic element: coloured red
- > Screw: A2 stainless steel/A2 stainless steel with hardened drill point
- > UV-resistant
- > Alignment
- > With cone head for easier assembly
- > Pre-assembled

Advantages

- > Invisible fastening: Facade stays perfectly smooth and harmonious
- > Combined system for setting, guiding and suspension
- > Efficient installation
- > Compatible with keyhole drilling
- > LT-TD screws: stop collar for vertical alignment, strip-proof by non-threaded part

Notice

PEARLOCK is an innovative, invisible fastening system that combines a high-quality appearance with easy and cost-effective installation.

Applications**Included in delivery set (pre-assembled)**
